

# Aluminum Alloy Die Casting Components Tolerance ±0.01mm

# **Basic Information**

- Place of Origin:
- Brand Name: ywy
- Model Number:
- Minimum Order
  Quantity:
- Price: USD 3.88-32.88 1 Perch/Perches

ywy123

- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram

guangdonghuizhou

1 Perch/Perches

Supply Ability: 1000 Perch/Perches 10-15work days

### **Product Specification**

Highlight:	0.01mm Die Casting Components, Magnesium Die Casting Components
Design:	3D/2D Drawing
Tolerance:	±0.01mm
Payment:	T/T, L/C, PayPal, Etc.
Lead Time:	7-15 Days
Material:	Aluminum, Zinc, Magnesium, Copper, Etc.
Pressure:	0-500T
Package:	Wooden Case/Pallet
Mold Life:	50,000-1,000,000 Shots

#### **Product Description:**

Die Casting Components are widely used in various industries, such as automotive, electronics, industrial, etc. We provide a variety of casting components, including sand castings, high-pressure die castings, low-pressure castings, and more. The materials used are usually aluminum, zinc, magnesium, copper, and other materials. We are capable of processing the components according to customers' drawings, whether it's 2D or 3D. The surface finish can be polished, anodized, plated, painted, etc. We also provide CNC machining services for components that require more precision.

Our die casting components are reliable and have a long service life. They are also lightweight and have great heat dissipation. We have advanced production equipment and experienced technicians to ensure the quality of our products. We also have a strict quality control system to ensure the delivery of products meeting the highest standards.

#### Features:

Product Name: Die Casting Components Pressure: 0-500T Shipping: By Sea/Air/Express Package: Wooden Case/Pallet Application: Automotive, Electronics, Industrial, Etc. Payment: T/T, L/C, PayPal, Etc. Sand Castings, Magnesium Alloy Castings, Gravity Castings, Zinc Alloy Castings

#### **Technical Parameters:**

Parameters	Value
Lead Time	7-15 Days
Payment	T/T, L/C, PayPal, Etc.
Package	Wooden Case/Pallet
Shipping	By Sea/Air/Express
Mold Life	50,000-1,000,000 Shots
Material	Aluminum, Zinc, Magnesium, Copper, Etc.
Application	Automotive, Electronics, Industrial, Etc.
Pressure	0-500T
Size	Customized
Processing	Die Casting, CNC Machining, Etc.
Castings	Low-pressure Castings, Sand Castings, Magnesium Alloy Castings

#### **Applications:**

YWY offers a wide range of die casting components with superior quality control, including metal injection moldings, high-pressure die castings, zinc alloy castings, aluminum alloy castings, etc. These components are manufactured with advanced die casting techniques and are designed with 3D/2D drawings. The material used for these components includes aluminum, zinc, magnesium, copper and more. With a mold life of 50,000 to 1,000,000 shots, these die casting components are packaged in wooden cases or pallets and can be shipped by sea, air or express. YWY die casting components are highly reliable for various industrial applications and are one of the most sought after products in the market.

#### **Customization:**

Die Casting Components by ywy Brand Name: ywy Model Number: ywy444 Place of Origin: Guangdong, Huizhou Payment: T/T, L/C, PayPal, Etc. Size: Customized Pressure: 0-500T Lead Time: 7-15 Days

#### Support and Services:

Technical Support & Services for Die Casting Components

We provide a range of technical support and services for our die casting components. Our experts can help you with design, development, and production. We can also provide technical assistance on assembly, finishing, and quality control.

Our technical support team is available to answer any questions you may have. We offer detailed product documentation and tutorials to help you get the most out of your die casting components. We also provide technical assistance on installation and commissioning, as well as troubleshooting and maintenance.

We have a team of experienced engineers who can help you with design and engineering services. We can provide CAD drawings, 3D models, and cost estimates, as well as design and simulation assistance. Our engineers will also assist you in selecting the right materials and processes, as well as recommending the best production techniques.

We also offer a range of after-sales services, such as customer service, spare parts, repairs, and maintenance. We are dedicated to providing you with the highest quality of service and support.
