

## Customized Stamped Metal Parts Durable Reliable

### Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

#### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

#### Product Specification

- Sample: Available
- Color: Customized
- Tolerance:  $\pm 0.01$ mm
- MOQ: 1000pcs
- OEM/ODM: Acceptable
- Shape: Customized
- Size: Customized
- Packaging: Carton, Wooden Case, Pallet, Etc.
- Highlight: **Customized Stamped Metal Parts,  
Durable Stamped Metal Parts**

## Product Description

### Product Description:

CNC Stamping Parts are metal forming components manufactured through metal stamping processes. The parts are created with a computer numeric control (CNC) machine, which uses a set of pre-programmed commands to guide a stamping tool in producing the desired component. These components come in a variety of shapes and sizes, with custom tolerances and surface treatments such as polishing, zinc plating, nickel plating, chrome plating and anodizing. Packaging options include carton, wooden case and pallet, etc., and all parts are inspected to ensure quality and accuracy to meet the highest standards.

Each CNC Stamping Part is designed and produced to customer specifications, and can be used for a variety of applications. The metal stamping process allows for quick production and high-quality parts, so customers can reap the benefits of the fast turnaround time and cost-effectiveness. The CNC Stamping Parts are durable, reliable and precise, and can be used in a variety of industries, including automotive, aerospace, medical, and more. With their superior performance and quality, CNC Stamping Parts are the perfect choice for any application.

### Features:

Product Name: CNC Stamping Parts

Processing Method: CNC Stamping

Metal Stamping Services: Forming, Bending, Punching, Deep Drawing, Etc.

Stamped Metal Parts: Automotive Parts, Electrical Parts, Electronic Parts, Industrial Parts, Etc.

Packaging: Carton, Wooden Case, Pallet, Etc.

Surface Treatment: Polishing, Zinc Plating, Nickel Plating, Chrome Plating, Anodizing, Etc.

Application: Automotive, Electrical, Electronic, Industrial, Etc.

MOQ: 1000pcs

### Technical Parameters:

Parameter	Description
Tolerance	±0.01mm
Size	Customized
Material	Stainless Steel, Carbon Steel, Aluminum, Copper, Brass, Etc.
Shape	Customized
MOQ	1000pcs
Color	Customized
Processing Method	CNC Stamping
Sample	Available
OEM/ODM	Acceptable
Packaging	Carton, Wooden Case, Pallet, Etc.
Metal Stamping Processes	CNC Stamping
Precision Sheet Metal Parts	Customized
Metal Stamping Services	Available

### Applications:

CNC Stamping Parts, made by YWY, is widely used in different industries. With Model Number cnc606, the parts can be customized according to customer's requirements. The metal parts are manufactured through metal stamping processes with various surface treatment, such as polishing, zinc plating, nickel plating, chrome plating, anodizing, etc. YWY provides high quality and reliable CNC Stamping Machines for metal parts manufacturing and packaging services, like carton, wooden case and pallet. OEM/ODM is acceptable and samples are available.

CNC Stamping Parts from YWY could be widely used in fields such as automotive, aerospace, medical, electronics, furniture, construction, and so on. With the advantages of high precision, high efficiency, repeatability and consistent quality, the stamped metal parts have been popular in many industries, especially in the automotive industry. YWY's CNC Stamping Parts can provide a safe, efficient and cost-effective solution to metal parts manufacturing.

### Packing and Shipping:

Packaging and Shipping of CNC Stamping Parts:

The CNC Stamping Parts will be packed in standard cartons with foam inlays. The carton size and foam inlays will be designed according to the size and shape of the parts, to ensure the parts are stable and secure during transportation. The parts will then be shipped by air freight or sea freight, depending on the destination and customer requirements.

**FAQ:**

Q: What is the Brand Name and Model Number for your CNC Stamping Parts?

A: The Brand Name is ywy and the Model Number is cnc606.

Q: Where is the Place of Origin for your CNC Stamping Parts?

A: The Place of Origin is GuangdongHuizhou.

Q: What materials are used for your CNC Stamping Parts?

A: Our CNC Stamping Parts are made of stainless steel, aluminum alloy, brass, carbon steel, etc.

Q: What surface treatments do you offer for your CNC Stamping Parts?

A: We offer a variety of surface treatments including anodizing, black oxide, plating, polishing, etc.

Q: What is the application of your CNC Stamping Parts?

A: Our CNC Stamping Parts are widely used in automotive, electronic, medical, construction, furniture, and other industries.
