

## Customized PLA FDM 3D Printed Parts Sandblasting

Our Product Introduction

for more products please visit us on [precision-cncparts.com](http://precision-cncparts.com)

### Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

### Product Specification

- Material: PLA
- Post-Processing: Sandblasting
- Tolerance:  $\pm 0.2\text{mm}$
- Design Software: SolidWorks
- Color: White
- Surface Finish: Smooth
- Printing Technology: FDM
- File Format: STL, IGS, STP
- Highlight: **FDM 3D Printed Parts,  
3D Printed Parts Sandblasting**

## Product Description

### Product Description:

3D Printed Parts are custom-made components manufactured with 3D printing technology, which can be used for various industrial purposes. The 3D printing technology used is FDM, and the parts are available in white color. The supported file formats for 3D printing are STL, IGS and STP. After the components are printed, there is an option for post-processing through sandblasting for a better look and feel. These 3D printed parts are widely used in industries, for prototyping and manufacturing components for various industrial applications.

### Features:

Product Name: **3D Printed Parts**

Surface Finish: **Smooth**

Printing Layer: **0.2mm**

Printing Technology: **FDM**

Tolerance: **±0.2mm**

Lead Time: **7-10 Days**

### Technical Parameters:

Specification	Parameters
MOQ	1 Piece
Surface Finish	Smooth
File Format	STL,IGS,STP
Post-Processing	Sandblasting
Tolerance	±0.2mm
Printing Technology	FDM
Color	White
Design Software	SolidWorks
Printing Layer	0.2mm
Material	PLA

### Applications:

YWY 3D Printed Parts provide a wide range of customizable solutions for your three-dimensional printing needs. Our parts are all designed and produced in Huizhou, Guangdong, using the latest sandblasting technology to achieve a smooth and white finish. Our lead time for 3D printed parts is usually seven to ten days, so you can get your parts quickly. YWY 3D Printed Parts are perfect for all your three-dimensional printing needs, including three-dimensional parts, three-dimensional prints, and customized 3D printed parts.

### Customization:

Customized 3D Printed Parts Service

Ywy provides customized 3D printed part services to meet specific needs. Our 3D printed components are made of high-quality PLA material and have a tolerance of ±0.2mm. We also offer post-processing services like sandblasting to enhance the surface finish. Our 3D printed parts are widely used in industrial applications and we offer MOQ of one piece.

Choose Ywy as your 3D printing products provider and get the best 3D printed components service.

### FAQ:

Q: What is 3D Printed Parts?

A: 3D Printed Parts is a product manufactured by ywy with model number ywy222, which is originated from Guangdong, Huizhou.

Q: What materials are used in 3D Printed Parts?

A: 3D Printed Parts usually use engineering-grade plastic, metal, or other materials.

Q: What is the lead time for 3D Printed Parts?

A: It usually takes 7-15 days for ywy to produce 3D Printed Parts.

Q: How accurate are 3D Printed Parts?

A: 3D Printed Parts are accurate to 0.1 mm.

Q: What is the minimum order quantity for 3D Printed Parts?

A: The MOQ for ywy's 3D Printed Parts is 1 piece.
