

CNC Machining Die Casting Components Aluminum Zinc

Our Product Introduction

for more products please visit us on precision-cncparts.com

Basic Information

- Place of Origin: guangdonghuizhou
- Brand Name: ywy
- Model Number: ywy123
- Minimum Order Quantity: 1 Perch/Perches
- Price: USD 3.88-32.88 1 Perch/Perches
- Packaging Details: Carton packaging and blister box
- Delivery Time: 10-15work days
- Payment Terms: L/C D/A D/P T/T Western Union MoneyGram
- Supply Ability: 1000 Perch/Perches 10-15work days

Product Specification

- Processing: Die Casting, CNC Machining, Etc.
- Lead Time: 7-15 Days
- Payment: T/T, L/C, PayPal, Etc.
- Design: 3D/2D Drawing
- Weight: 0.1-50kg
- Size: Customized
- Package: Wooden Case/Pallet
- Tolerance: $\pm 0.01\text{mm}$
- Highlight: **CNC Die Casting Components, Machining Die Casting Components**

Product Description

Product Description:

Die Casting Components are made of magnesium alloy, gravity castings and low-pressure castings, which are processed through die casting, CNC machining, etc. They are of high precision, with tolerance up to $\pm 0.01\text{mm}$, and pressure range from 0-500T. The components can be widely used in automotive, electronics, industrial, etc. and be packaged in wooden cases or pallets for easy transportation.

As a professional manufacturer and supplier, our Die Casting Components are highly recognized for their excellent quality and performance. We have a team of professional engineers who are dedicated to ensuring the quality and accuracy of our products. With our advanced technology and strict quality control, we are confident that you will be satisfied with our products.

Technical Parameters:

Parameters	Specifications
Design	3D/2D Drawing
Material	Aluminum, Zinc, Magnesium, Copper, Etc.
Tolerance	$\pm 0.01\text{mm}$
Pressure	0-500T
Weight	0.1-50kg
Lead Time	7-15 Days
Processing	Sand Castings, Magnesium Alloy Castings, Lost Wax Castings, Copper Alloy Castings, Die Casting Components, CNC Machining, Etc.
Mold Life	50,000-1,000,000 Shots
Package	Wooden Case/Pallet
Surface Finish	Polishing, Anodizing, Plating, Painting, Etc.

Applications:

Die Casting Components

Die casting components, with the brand name of YWY and model number of YWY444, is made of high-quality metal materials in Guangdong, Huizhou. It is mainly used for metal injection moldings, gravity castings, and metal injection moldings. It can be customized according to your needs, and can withstand a pressure from 0 to 500 tons. The lead time is 7 to 15 days and the weight is from 0.1 to 50kg. YWY also provides various shipping options, such as by sea, by air or express.

Customization:

Die Casting Components

Brand Name: ywy

Model Number: ywy444

Place of Origin: Guangdong, Huizhou

Size: Customized

Material: Aluminum, Zinc, Magnesium, Copper, Etc.

Package: Wooden Case/Pallet

Design: 3D/2D Drawing

Payment: T/T, L/C, PayPal, Etc.

At YWY, we provide custom die casting components including aluminum alloy castings, magnesium alloy castings, gravity castings, die castings, sand castings, investment castings, low pressure die castings and high pressure die castings. All of our products are of high quality and can be customized to fit your needs. We also offer a variety of payment options, including T/T, L/C, PayPal, etc. to ensure your satisfaction.

Support and Services:

Die Casting Components Technical Support and Service

We provide technical support and service for our die casting components. We have a team of experienced professionals who are available to answer any questions you may have about the product design, production or installation. We also provide detailed instructions on how to properly install and use our die casting components.

Our team is also available to help troubleshoot any issues you may be having with our components. We strive to provide the highest level of customer service and technical support so you can be sure that your die casting components are up and running correctly.

FAQ:

Q: What is Die Casting Components?

A: Die Casting Components is a product from Ywy that is produced from high quality materials in Guangdong Huizhou. Model Number Ywy444.

Q: What materials are used to make Die Casting Components?

A: The materials used to make Die Casting Components are high quality metals and alloys.

Q: What is the process of Die Casting Components?

A: Die Casting Components is a process that involves melting metal in a mold, then injecting it under high pressure into a mold cavity.

Q: How long does it take to make Die Casting Components?

A: It usually takes a few days to make Die Casting Components depending on the size and complexity of the components.

Q: What are the benefits of using Die Casting Components?

A: Die Casting Components offer many benefits, including stronger and more durable components, better surface finish, and accuracy of parts.
